## QUALIFICATION

<b>Shah and Anchor Kutchhi Engineering College (SAKEC), Mumbai</b> <i>Bachelor of Engineering in Computer Engineering - <b>University of Mumbai</b></i>	Mar 2019 – June 2023 <b>CGPA: 9.27/10</b>
<b>Nirmal Junior College of Commerce and Science, Mumbai</b> <i>Higher Secondary Examination - <b>State Board of Maharashtra</b></i>	Apr 2017 – May 2019 <b>Aggregate: 71.52%</b>
<b>Pawar Public School, Mumbai</b> <i>Secondary School Examination - <b>Indian Certificate of Secondary Education</b></i>	Mar 2016 – Apr 2017 <b>Aggregate: 74.66%</b>

## TECHNICAL SKILLS

**Proficient:** Java, Python, HTML, CSS, JavaScript, Bootstrap, Angular, React, Spring Boot, Git  
**Familiar:** C, C++, SQL, DSA, Django, PHP, MaterialUI, Typescript, Unity, Figma, Flutter, NLP, Machine Learning

## PROFESSIONAL EXPERIENCE

<b>Full Stack Developer Intern</b> - <i>FossGen Technologies</i>	Aug 2022 - Present
<ul style="list-style-type: none"><li>Develop websites using Angular and Spring Boot as per the client's requirements</li></ul>	
<b>Software Engineer Trainee</b> - <i>Aspire Research Foundation</i>	Sep 2021 – Feb 2022
<ul style="list-style-type: none"><li>Worked actively on Angular 12, Typescript, and Java Spring Boot for developing interactive websites for various Clients.</li></ul>	
<b>Software Developer Intern</b> - <i>Shah and Anchor Kutchhi Engineering College</i>	Jun 2021 – Aug 2021
<ul style="list-style-type: none"><li>Built a gaming web application in HTML, CSS, JS, and PHP that promoted intuitive learning for students, through games such as crossword, jumbled word, etc, and enabled teachers to track performance metrics through graphs and charts.</li></ul>	
<b>Software Engineer</b> - <i>Marketlync (USA)</i>	Nov 2020 – Apr 2021
<ul style="list-style-type: none"><li>Analysed product wireframes to develop components such as user profile, forms, feed using React, TypeScript, and Material-UI to enable client-admin interaction</li><li>Integrated existing static components with APIs using GraphQL making them interactive, and enabling CRUD operations</li></ul>	

## PROJECTS

<b>Summarizing Teams Meetings (STM) – Python, NLP</b>
<ul style="list-style-type: none"><li>Developed a Python app that summarizes an online meeting, by taking either a recording or a transcript and generates a Minutes of the Meeting (MOM)</li></ul>
<b>SMS Spam Detection – HTML, CSS, JS, Django, Machine Learning</b>
<ul style="list-style-type: none"><li>Built a website that detects spam in an entered text message using Machine learning techniques such as Naïve Bayes and Support Vector Machines (SVM)</li></ul>
<b>AlgoHub - React, Algorithms</b>
<ul style="list-style-type: none"><li>Programmed a web sorting algorithm visualizer using React that helps understand the working of different algorithms</li></ul>

## ACHIEVEMENTS AND RESPONSIBILITIES

<b>Technical Head</b> - <i>Computer Society of India (CSI) SAKEC</i>	Jul 2021 – Present
<ul style="list-style-type: none"><li>Handle all the technical responsibilities of events happening in CSI SAKEC</li></ul>	
<b>Finalist of Deep Blue Hackathon Season 7 - Mastek</b>	Dec 2021 - Apr 2022
<ul style="list-style-type: none"><li>Selected for the Finale after qualifying in the first two rounds</li></ul>	

## PUBLICATIONS

<b>A Comparative Study of Spam SMS Detection using various Supervised ML Algorithms</b> - <i>7th International Symposium on Intelligent Informatics</i>	Aug 2022
<ul style="list-style-type: none"><li>Paper is presented and is under process for publication</li></ul>	

## EXTRA-CURRICULAR ACTIVITIES

- Successfully organized a Human Foosball event with my volunteers, which attracted 45+ participants.
- Served as a member of the Marketing team to get funding for the College fest
- Guitarist for SAKEC STUDIO, where I performed several songs live for more than 100 people.
- Volunteered for an event named NEON Cricket in SAKEC
